English

PROFILE

Senior Full Stack Engineer with 4+ years of experience building scalable fintech systems and web applications. Specialized in Java/Spring Boot backends and Next.js/React frontends, with additional expertise in payment integrations (M-PESA, Telebirr, PayPal) and CMS development (Joomla, Laravel). Proven track record of leading teams, optimizing legacy systems, and delivering high-performance solutions that drive business growth.

WORK EXPERIENCE

Spring boot Developer → Team Lead → Senior Software Engineer |
Nov 24 – Present

Arifpay Financial Technologies Nov 2024 - Present

- Architected recurring billing and split payment systems, integrating PayPal, Telebirr, and M-PESA, processing 50,000+ transactions/month.
- Refactored legacy code, improving transaction throughput by 50% and reducing latency by 30%.
- Promoted to lead two teams (5 developers each) within 4 months; mentored junior engineers in Spring Boot and event-driven design.
- Spearheaded a USSD banking module for loan management, reducing approval times from 48 hours to real-time.
- Built a parking management system (Next.js + Spring Boot) with embedded payments, adopted by 3 commercial clients.

Backend Developer Intern (Cybersecurity Team)

Safaricom et. April 2024 - July 2024

- Developed Python scripts to automate CIS compliance checks, reducing manual effort by 70%.
- Centralized reporting for 10+ third-party apps using Spring Boot APIs and a Next.js dashboard.
- Implemented OAuth 2.0 and LDAP integration via Keycloak, enabling role-based access for 500+ internal users.
- Monitored system health with Grafana/Prometheus, reducing incident response time by 40%.

Reffrences

Ebsa Olijira : +251799209424

Backend Developer (Training Program)

Gebeya Inc. Sep 2023 - June 2024

- Developed a USSD banking API handling balance inquiries, transfers, and bill payments (Spring Boot + MySQL).
- Built a school management system using microservices (Eureka, Spring Cloud Gateway), serving 1,200+ users.
- ▶ Capstone Project
- Led development of Sebsabi, a survey data collection tool (Spring Boot backend + React/Flutter frontend).

Senior Joomla/PHP Developer

Freelance (Upwork & Betolo IT Solutions) March 2023 - Present

- Delivered Noah Real Estate's website with custom property search filters (PHP/Joomla), increasing leads by 25%.
- Optimized Sinopia Furnitures' SEO, boosting organic traffic by 60% in 3 months.
- ▶ Collaborations
- Remote work for Bosst Performances (USA), fixing performance bottlenecks and reducing page load time by 35%.

KEY ACHIEVEMENTS

- 50% performance gain at ArifPay via system refactoring.
 - 7+ developers mentored across roles.
 - 10+ full-stack projects delivered (fintech, CMS, microservices).
-

Frontend Developer → Team Lead

Betolo IT Solution PLC

June 2022 - February 2023

- Built ezmtrade.com (e-commerce) and redbricktravel.com (tourism), handling 10K+ monthly visitors.
- Customized PHP modules for Belayneh Kinde Exports to streamline product catalog updates.
- ▶ Leadership
- Promoted to lead after 4 months; trained 2 junior developers in Joomla and client communication.
